

Latest generation RIP software with 16 bit rendering, which fully enables the advanced features of Mimaki printers

[8 bit rendering]
Tone jumps are likely to occur

[16 bit rendering]
Smooth gradation without tone jump

RasterLink Pro 5 Series

- 16 bit rendering eliminates tone jump and produces fine colour reproduction.
- Multiple images can easily be nested, positioned and resized.
- New web update function to easily update both software and profiles.

RASTER
LINK PRO

MimakiProfileMaster II

High quality device profiles

Mimaki Profile Master II helps to easily create a high quality ICC device profile that corresponds to specific media / ink characteristics.

Easy automatic colour matching

Colour matching of specified colours, special colours, and corporate colours is made easy with the 'Eye One' colorimeter and the colour picker system.

PROFILE
MASTER

Simple Studio is supplied with the CJV30 Series as standard.

Designing and creating cutting data can be done in either CorelDRAW or Illustrator.

FINE
CUT

High quality cutting software

FineCut 8 enhances the potential of Mimaki's cutting plotters, responding to highly sophisticated design needs.

Simple Studio

Print & Cut application software

Simple Studio is application software dedicated to easy to use Print & Cut data creation.

- Some of the samples in this brochure are artificial renderings.
- Specifications, designs and dimensions stated in this brochure may be subject to change without notice (for technical improvements, etc.)
- The corporate and merchandise names written on this brochure are the trademark of the respective corporations.
- Inkjet printers use extremely fine dots, so colours may vary after replacement of the printing heads. If using multiple printer units, colours could vary slightly from one unit to the other.
- E+OE.

SIGN & GRAPHICS

Innovative tools for sign making and graphics professionals

CJV30 Series

Integrated printer / cutters

Outdoor durable printers

- 60, 100, 130 & 160cm
- Eco solvent or standard solvent
- Fully automated print & cut workflow

CJV30 Series
CJV30-60/100/130/160

JV33 Series

High quality production outdoor durable printers

- 1.3m & 1.6m
- Eco solvent, standard solvent or dye sublimation inks
- Up to 17.5m² / hr

JV33 Series
JV33-130/JV33-160

JV34-260

Baby grand format production printer

- 2.6m
- Standard solvent or dye sublimation inks
- Up to 30m² / hr

JV34-260

JV5 Series

Volume production wide and superwide format printer range

- 1.6m & 3.2m
- Eco solvent, standard solvent or dye sublimation inks
- Production: 40m² / hr
- Maximum: 60.3m² / hr

JV5 Series

*Model Dependent

UV curing printer

- 1.6m LED UV hybrid printer
- Low running costs
- Print roll fed media or up to 10mm rigid

UV-160

Cutting plotters

- 60cm, 100cm & 130cm
- Unique die cut feature
- Free FineCut software

CG-SR Series

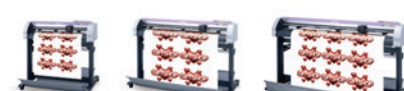

CG-FXII Series

High quality, production cutting plotters

- 75cm, 130cm & 160cm
- Unique die cut feature
- Free FineCut software

FXII Series

INDUSTRIAL PRODUCTS

INDUSTRIAL PRODUCTS

On demand printing and cutting solutions for industrial, manufacturing and proofing markets

UJF-3042FX

A3 desktop LED UV printer

UV curing printers

- Compact and affordable
- LED UV curing
- 300 x 420 x 50mm print area
- For promotional items, branded goods, proofing etc

UJF-3042FX

UJF-706

High precision, flatbed industrial UV printer

- UV curing inkjet printer
- 700 x 600 x 150mm print area
- Suitable for industrial, proofing and promotional use
- Roll feed option for packaging proofing

UJF-706

JFXplus Series

High speed, high quality LED UV flatbed printers

- 1.6m x 3.1m & 1.6m x 1.5m
- LED UV ink
- 5cm head height
- Roll feed option
- Production: 13m² / hr
- Maximum: 23.6m² / hr

JFXplus

CF2 Series

Flatbed cutting plotter

Cutting plotters

- 90 x 120cm, 120 x 180cm
- Variety of head options including tangential and reciprocal

CF2 Series

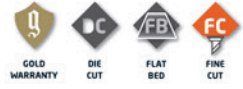

CF3 Series

Flatbed cutting plotter with routing head

- 1.6 x 1.0m and 1.6 x 3.1m
- Print & cut with UJV-160 / JFXplus Series
- Routing, tangential and reciprocal heads

CF3 Series

TEXTILE & APPAREL

TEXTILE & APPAREL

Direct and sublimation printing onto fabrics and garments

TPC-1000

Integrated transfer printer / cutter

Direct to textile / dye sublimation printers

- 100cm dye sub printer with integrated cutter for volume small format output & sportswear

TPC-1000

TS3-1600

High quality production dye sublimation printer

- 1.6m dye sub printer
- MBIS
- Up to 17.5m² / hr

TS3-1600

TS5-1600AMF

Volume production wide format printer

- 1.6m dye sublimation printer
- MBIS & AMF as standard
- Production: 40m² / hr
- Maximum*: 58m² / hr
- *subject to drying speed of media

TS5-1600AMF

JV34-260

Baby grand format production printer

- 2.6m
- Standard solvent or dye sublimation inks
- Up to 30m² / hr

JV34-260

Tx400-1800D

Latest generation textile printer

Direct to textile / dye sublimation printers

- Direct to textile printer
- Dye sublimation, pigment and reactive ink
- Adhesive belt carrier version available (Tx400-1800B)
- High quality: 30.4m² / hr
- Production: 56.4m² / hr
- Maximum: 99.1m² / hr

TextileJET

JV5-320DS

Volume production superwide printer

- 3.2m production printer
- Dye sublimation inks
- Soft signage, retail POS and exhibition graphics
- Production: 43.4m² / hr
- Maximum: 60.3m² / hr

JV5-320S
