

# :ANAPURNA SOLUTIONS

## *Party gadgets (beer coasters)*

### **Application description**

Personalized party, mailings, ...

Material: untreated cardboard

Especially on XLS and M, very flat tints can be printed; whereas the XL<sup>2</sup> will give added value when using partial white. To ensure the rubresistance on polyprop, prints are made on the back side; and a anti-slip silicone-layer can be printed with silkscreen at the back.

### **Technology used**

- Printed on :Anapurna M - Q8P.
- Extra Wide Gamut configurations are used to ensure saturated colors are within reach.
- Partial white is used.
- Color Profiles are made with ColorTune 5.0.

### **Production notes**

- Printed UNI-directional with 50% UV power.
- Normal speed (S7), 6m<sup>2</sup>/hour.
- Printed on 70x100 die-cut material.

### **Remarks**

- Material can be very heat sensitive.
